

# Christ Church College Kanpur

## Environmental Protection Cell

### **Report: World Sparrow Day Celebration**

**Venue:** Christ Church College Campus

**Date:** 20 March 2026

**Organized by:** Environmental Protection Cell (EPC)

#### **Introduction**

On the occasion of **World Sparrow Day**, the Environmental Protection Cell (EPC) of Christ Church College organized a conservation drive aimed at protecting the dwindling population of house sparrows. The event focused on creating a sustainable habitat for birds within the college premises.

#### **Key Activities**

To mark the day, the EPC successfully installed **four specialized sparrow nests** across various strategic locations on campus. Recognizing the rising temperatures and the need for urban avian support, the team also placed **water pots** and **food pots** alongside the nests to ensure a consistent supply of nourishment for the birds.

#### **Participants and Execution**

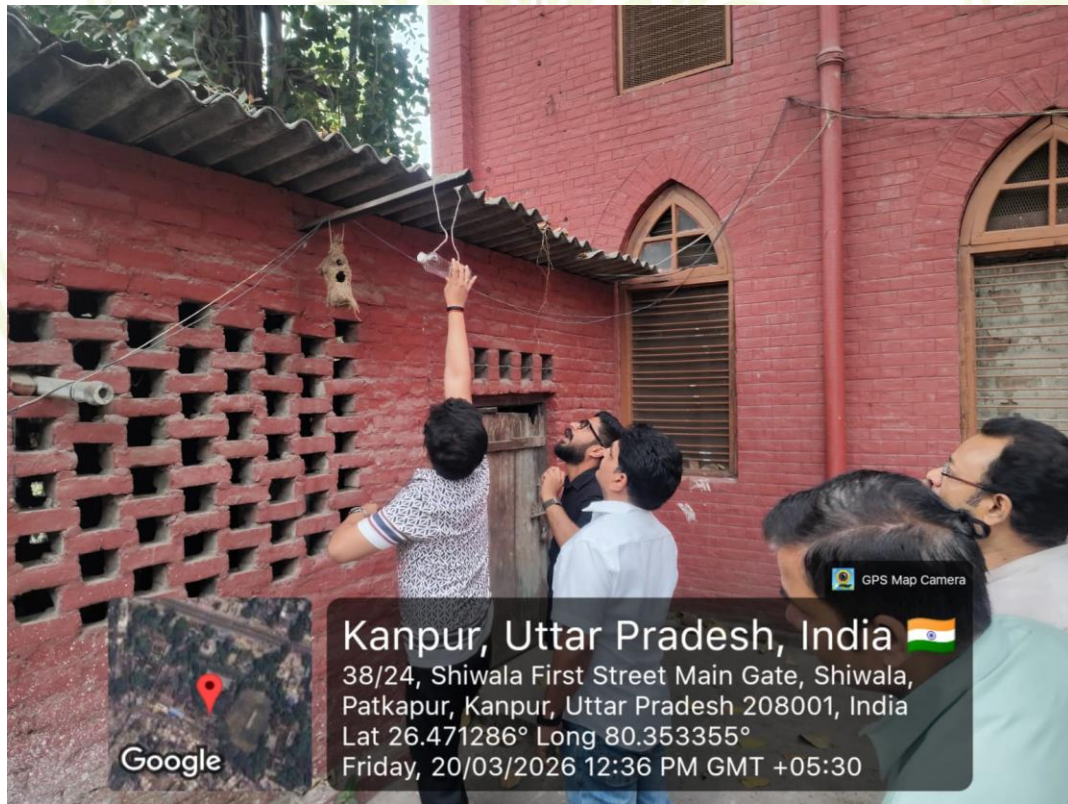

The initiative was carried out under the leadership of EPC Coordinator **Dr. Himansu Dixit**. The installation was supported by prominent faculty members, including:

- **Dr. Zaved Ahmad**
- **Prof. Naveen K. Ambast**

A dedicated group of **student volunteers** also participated actively, assisting in the placement of the nests and pots. Following the successful installation, the team held a brief celebration to reinforce their commitment to biodiversity and environmental stewardship.

## Conclusion

The event concluded with a pledge by the EPC members to monitor these bird stations regularly. By providing shelter and food, Christ Church College continues to lead by example in fostering an eco-friendly campus environment.
